-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 March 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-4 and 7-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The phrase "the base material being of a different material than the adhesive layer" could not be located in the specification, as originally filed, and is found to be new matter.

Similarly, the phrases "a higher release force" and "a lower release force" are deemed to be new matter because for lack of support therefor in the specification. The specification teaches a light or heavy release sheet and that is not the same as higher or lower release force. For example, the heavy release sheet can be a sheet that is heavy in weight and not be higher or lower in release force.

Rejections Withdrawn

3. Claims 10 and 15 are rejected under 35 U.S.C. 112, first paragraph, made in the last Office Action of November 30, 2005 has been withdrawn in view of the amendment filed on March 23, 2006.

4. Claims 10 and 15 are rejected under 35 U.S.C. 112, second paragraph, made in the last Office Action of November 30, 2005 has been withdrawn in view of the amendment.

Rejection Maintained

5. Claims 1, 3, 7-9, 11-14 rejected under 35 USC 103(a) as being unpatentable over The Partial English Translation of German DE 599159 for reasons of record made in the last Office Action.

Response to Arguments

6. Applicant's arguments filed March 23, 2006 have been fully considered but they are not persuasive.

Applicant argues that the German DE'159 reference fails to teach that the base material is different from the adhesive and fails to teach both an adhesive layer and a base material. This is not deemed to be convincing because, as mentioned in the previous paragraphs hereinabove, the phrase "the base material being of a different material than the adhesive layer" could not be located in the specification, as originally filed, and is found to be new matter. Hence, the new matter phrases have not been considered for the purpose of examination of the instant claims.

Art Unit: 1772

Regarding applicant's argument that the Office Action improperly cites the same elements of DE'159 (sic) for rejecting claim 3, when its order of the sheets, layers, and elements are different compared to claim 1. this is not found to be persuasive because, when the sheet is in a roll form the different sheets, layers and elements are located in the same order with respect to each other.

With respect to the depended claims, the above explanations apply *a fortiori* herein.

Thus, in the absence of any evidence to the contrary, it remains the examiner's position that the claimed invention is obvious over the prior art of record discussed above.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

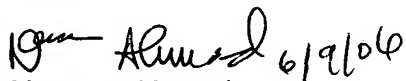

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
